Plankis moved to send this Ordinance to the Town Council with a positive recommendation.

Kingshill seconded, and the motion passed unanimously.

COMMITTEE REPORTS

Todd reported on the Standards Subcommittee meeting of April 18, which included proposed draft definitions of gross and net acreage and gross and net density. He stated the definitions are being presented for discussion purposes only and that staff recommends these definitions be forwarded to Council for consideration.

Kelleher reiterated these definitions are for discussion and believes the Council should also review it.

Plankis asked if the Committee reviewed what other communities are doing and how they define and/or calculate these terms.

Plankis requested documents be referenced and dated in order to keep in the most current order.

Todd stated he would compile information from neighboring communities and get it to the appropriate people, including the Commission and the Council.

Plankis suggested adding this item to the May agenda for further discussion. He also suggested sending this on to the Council for information purposes.

Kelleher stated everyone should review these items and definitions and be ready to discuss at next APC meeting, ask questions, and make recommendations.

Todd stated that the Zoning Ordinance Rewrite Task List is a result of staff's research into BZA requests and PUD amendments to development standards. Staff's vision is that up to four or five sections will be worked on at one time in order to multitask and get this finished as quickly as possible. Todd further stated there is a series of items that will be amended throughout the entire process of the rewrite, which is shown on the "Ongoing" column on the handout. He reiterated this will be a fluid process; this is the first attempt at setting guidelines and direction for this process.

The meeting adjourned at 8:30 p.m.
